myli F. Y. HOCKETT, Agent. THE MISSISSIPPI VALLEY

Navigation Company

SOUTH AND WEST. O THE OWNERS OF REAL ESTATE IN TENNESSEE, MISSISSIPPI, ALA-

BAMA AND ARKANSAS THE COMPANY KNOWN TO THE PUBLIC as the "Mischestopt Valley Navingation Company of the South and West," is organized inder a charter from the State of Louisiana. This charter authorizes a capital stock of five hundred thousand dollars, with the privilege of extension to one million. That the public may know the exact object of the Company, the third article of the charter is given entire as follows:

"The object of this Company is to construct or otherwise to procure and maintain one or more steamboais or other vessels, to run on and maying the Mischesphi river, or its tributaries, for the purpose of carrying freight, male and passonness; to committee docks a har ves, buildings and such subseque on

ore sufe than any description of beats ever aced upon our waters. Divided into dis-not compartments, if disaster, whether by ilinet compartments, if disaster, whether by fire or analy, shall happen to one, the boat is not endangered. In case if fire, apparatus for turning steam upon it will be provided, and it is demonstrated that steam is the most effective extinguisher of fire. In case one compartment is broken through by contaggith snags, and fills with water, the others are not endangered, and the boat curnot sink, as pumps, provided for such an emergency, will be in instant operation. Safety to passengers and freight is a great end, worthy of the struggle of the people of the Miestsippi Valley.

the struggle of the people of the Misslesippi Valley.

Nearly three hundred thousand dollars in money and work has already been subscribed to the capital stock of the Company. The Londsiana Legislature has passed a half succepting one hundred thousand dollars of stock to the Company. An adultional sum of that amount will, without a doubt, be subscribed by the same body. The Company have resolved to take lands for stock, and this is the feature to which they design to call the attention of owners of real estate. In the Southern States, on account of the disorganized condition of labor, lands are an incumbrance. Vast tracts that yield no revenue dhe proprietors, pay exorbitiant taxes, an thus cripple their only productive resources. This Company propose to take these lands at a fair yalmation and besue to the owners their dock in lieu. If is an same change my thus he land proprietor carry in his pocket the interest of the land proprietor carry in his pocket the General Commission Merchants

stock in flett. It makes and contains a factor to will the stock enhance in value, and thus the land proprietor easily in his pocket the equivalent of his lands, to be converted into money or property without delay. The success of this great enterprise is beyond question. The stockholder, in addition to the benefit of the enhanced value of his lands will be part owner of a line of boats, and be entitled to dividends in their earnings.

Persons wishing to exchange lands for the stock of the Company will send to the Agent at Memphis a description of them, their productive qualifies, the disable, bottom or upland; whather overflowed or not, if overflowed, that proportion how near to boanty-town, to railroad, depot, river; and all facts necessary for afford the Company satisfactory idea of the land. This han, done by certificates of reliable, disinterest

The foregoing facts are submitted to the ublic in the confident belief that they will e understood and appreciated F. Y. ROCKETT,
